### STRATHCONA SHIELD PRESENTED TO SCHOOL

A very interesting ceremony took place in the Grade VIII room of the local school on Friday afternoon last, when the Strathcona Trust Fund was presented to the class through their teacher, Miss Geraldine Frey.

Members of the school board, Messrs. R. W. H. Pinkney, R. Horns, A. Bassetti, S. G. Barman and Robert Oakes, were present. Mr. Pinkney, as chairman, unveiled the shield and congratulated Miss Frey and the pupils on their good work, and the honor they had brought to the Blairstown school. Remarks along similar lines were made by Mr. Barman and others, urging upon the pupils the necessity of keeping up the good work in order to retain this coveted trophy another year.

The shield is open for competition by all Grade VIII schools in the Macleod inspectorate, and has been won by Blairstown twice in the last three years.

### CITIZEN'S LEAGUE

#### REORGANIZES

At a well attended meeting of citizens, held on Thursday night last, the Blairstown Citizens League was reorganized, with the following executive: L. L. Morgan, president; Robert Oakes, vice-president; P. C. Montebello, secretary; T. J. Williams, treasurer; and finance, publicity, membership and legal committees.

The next regular meeting is called for April 20th.

### COLEMAN TEACHERS'

#### ALLIANCE LOCAL

The first meeting of the New Year took place on the 10th of January at Central School, with the President, Mrs. Jessie Danier, in the chair. The teachers were pleased to welcome Mr. Bremner as their visitor.

To begin with, Mr. Cousins gave his next contribution to the series of "First Aid" talks. This time his subject was "Bandages for Sprains, Breaks, etc., and he was well assisted by Mr. McDonald and Mr. Spiller, who acted as demonstrators. The information was interesting and entertaining.

The meeting then took the form of a discussion on research in the various public school subjects—topics which had been started in December. Everyone participated with great enthusiasm in the discussions, and Mr. Bremner gave helpful suggestions. All members voted this one of the most successful meetings of the year.

On February 14, the members met again. This time the programme was varied. Mr. Cousins again began with his "First Aid" lecture, the subject being "Wounds." Community singing followed, in which all joined; current events for the past month, and Miss M. Dunlop submitted two fine book reviews. Mr. Cousins brought the programme to a close by rendering a solo; and the members dismissed, after having spent a profitable and pleasurable afternoon—the A.T.A. Magazine. (Some reader might conclude from the above that the quality of the singing caused the gathering to disperse; but such was not the case.)

### MINERS AND OPERATORS AGREE

The Moncton Hawks are now proud possessors for a year of the coveted Allan Cup, emblematic of amateur hockey. They defeated the built-up Saskatoon Quakers 2-0 and 3-0 at Vancouver.

Far-famed world championship wheat from Alberta will be used to seed fields in far away Newfoundland this season, as a result of the sale by the Alberta department of agriculture of a carload of prize seed wheat from the Wembley district, in the Peace River country, to the Newfoundland department of agriculture. The carload was made up half of Marquis and half of Reward.

### REV. A. E. LARKE RECEIVES LOCAL CALL

There was a large attendance at the United church on Sunday evening last, when a call was extended to the acting pastor, Rev. A. E. Larke, to charge here.

Mr. Larke has been holding the post here since the resignation of Rev. J. W. Smith last year, and since coming here has met with considerable success. Previous to coming to Blairstown, Mr. Larke was pastor of St. Paul's United church at Coleman. Should he accept the call, his duties will commence on June 1st.

The resolution to call was carried unanimously.

### FORMER BLAIRMORE GIRL MARRIES AT CRESTON

The marriage of Miss Gwenlyn Patricia Dawson, youngest daughter of Mr. and Mrs. Thomas S. Dawson, formerly of Blairstown, now of Kimberley, and Gwynn R. John, of Burry Port, South Wales, took place at Creston on March 7th.

The bride is a registered nurse, having graduated from the Kootenay Lake general hospital last year. The groom is on the staff of the West Kootenay Power & Light Co. at Creston.

### RED TRAIL ASSOCIATION

#### TO MEET AT FERNIE

J. W. Greenway president of the Southern Slocan Red Trail Association, has called a meeting for April 22 at eight o'clock at Fernie for the formulation of plans for the 1933 tourist season. The president in his official call expresses his desire for a representative gathering, and suggests that in the election of officers British Columbia men be named. After having been given the major number of offices last year.

The association is in excellent condition financially. The total cost last year was some \$800, including in which figure was a supply of material sufficient for printing 10,000 maps for 1933. President Greenway believes the association will be able to function efficiently this year on a budget of \$300. This means that no member-city will have to set aside more than \$50.

The convention headquarters will be the King Edward hotel.

### KEPT GOTHAM CHUCKLING

New York still chuckles over the comical iceman in the late David Belasco's stage production "It's a Wise Child." That stage iceman was Sydney Toler, who soon thereafter shook the pavements of Broadway for the sunshine of Hollywood. Toler, playing an important role in the Paramount comedy, "He Learned About Women," featuring Stuart Ervin and Miss M. Dunlop, submitted two fine book reviews. Mr. Cousins brought the programme to a close by rendering a solo; and the members dismissed, after having spent a profitable and pleasurable afternoon—the A.T.A. Magazine. (Some reader might conclude from the above that the quality of the singing caused the gathering to disperse; but such was not the case.)

Extra for Monday and Tuesday only, the official pictures of the Prime Carniero-Ernie Schaaf heavyweight bout will be shown.

### HEAVY SENTENCE

#### FOR KIDNAPPING

St. Paul, April 11.—Ray Robinson, of Edmonton, Alta., confessed, kidnapper of Haskell Bohr here last summer, was sentenced to serve not more than 25 years in prison by District Judge J. W. Boerner today.

Robinson, 40, an unemployed railroad worker, pleaded guilty last week after his arrest in Rockton, Man. He said he was one of two men who seized Bohr, 21, son of a local refrigerator manufacturer.

Bohr, kept in Minneapolis nearly a week, was freed on payment of \$12,000.

Police are hunting for Verne Sankey and Gordon Elkhorn, two other Canadians who are wanted in Denver for complicity in the kidnapping of Charles Boettcher II. They also want Mrs. Sankey, who is held in Denver.

Bohr was held in a Minnesotan residence occupied by the Sankeys. Boettcher was a captive nearly 17 days on the Sankey ranch in Buffalo county, S.D., before payment of \$60,000 brought release.

Robinson denied having anything to do with the Boettcher seizure.

### \$340 MINIMUM REMAINS INTACT

Much energy was directed during recent weeks by the executive with the splendid support of the locals, to avoid certain proposed amendments to The School Act being enacted by the legislature. It is gratifying indeed to announce as we go to press that the efforts were attended with success.

The executive expresses its heartfelt thanks and voices its pride at the wholehearted backing of the membership, particularly for the hundred per cent co-operation of locals in endorse-

ing the protests against the extremely discriminatory legislation as introduced in the recent bill amending the School Act covering termination agreements between teachers and school boards, and the statutory minimum salary. It is noteworthy also that, up to the time of writing, not a single instance has been brought to our notice of the press throughout the province being otherwise than unequivocally in support of the teacher's cause in these respects, and the teachers owe a debt of gratitude to them.

### Insect Pests

Inspection Staff Guards Against Entry Into Canada Of Pests From Foreign Countries

Ten thousand four hundred and forty-eight separate shipments, involving 3,704,210 containers of plants of all kinds and descriptions from all parts of the world were examined last year by the entomological inspection staff of the Department of Agriculture, Ottawa, at ten ports of entry and at two collection districts to prevent the entry into Canada of insect pests and plant diseases. Among the most important pests intercepted were the European Earwig, the Brown-tailed Moth, Pins Shoot Moth, Granary weevils, Rub flies and greenhouse pests.

### History of Alfalfa

Use Of This Plant Can Be Traced Since Year 900 B.C.

About 500 B.C. Alfalfa was brought from Persia to Greece, whence it spread first to Italy, then to Northern Africa. The Arabs carried the plant to Spain in the seventh century A.D., and later it was introduced to France. The Spaniards brought it to Mexico, South America, and western United States; British and other colonists took the plant to the eastern parts of North America.

### Breeds Of Turkeys

Flesh Of All Turkeys Is Very Similar In Texture

The most important breeds of turkeys are Bronze, White Holland, and Narragansett. Other breeds are Bourbon, Red, Black, and Slate. There is little difference in the hardiness of any of the breeds, says the Dominion Department of Agriculture, and the flesh of all turkeys is very similar in texture and flavour.

By Ruth Rogers

DASHING SCHOOL GIRL DRESS IN SIMPLE SPORTS TYPE.

It's very simple—as it should be.

It carries a sporty air in its buttoned closing from neck to waistline. Its cased sleeves are another smart feature.

Still another asset is that it is easily fashioned.

For it, linen in sailor-blue is exceedingly attractive with white trim and matching cutout the nautical idea, now so popular.

Angora weave yellow in a yellow and brown checkered pattern is another smart scheme with yellow trim.

Size 8 requires 2½ yards 35-inch,

with 1½ yards ¾-inch braid.

For the weather wear, you can have the long sleeves as seen in the miniature view.

Price of pattern 20 cents in stamps or coin (coin is preferred). Wrap coin carefully.

### WHAT NO SWASTIKA?

Immaculately attired in morning dress and top hat, Chancellor-Adolf Hitler, Germany's Nazi Dictator, is pictured as he left the memorial services for the nation's dead, held in Berlin recently. This is one of the few pictures of Hitler without his brown shirt, ornamented with the Nazi swastika emblem which has now become a symbol on the national flag.

### RECIPES FOR THIS WEEK

(By Betty Barclay)

#### OLD FAVORITE SALAD

24 cooked prunes.  
¾ cup grated raw carrot.  
¾ cup shredded pineapple.  
½ cup shredded coconut.  
½ teaspoon salt.

Remove pits from prunes. Mix carrots lightly with pineapple, coconut, and salt. Stuff the prunes with liberal amounts of mixture, but do not pack the filling. Leave carrots fluffy. Arrange prunes on lettuce, allowing four prunes to a serving, and garnish with mayonnaise.

#### TOMATOES STUFFED WITH VEAL

Wipe and remove thin slices from stem end of six medium-size tomatoes. Take out seeds and pulp, sprinkle inside of tomatoes with salt. Cool two tablespoons butter with one-half tablespoon finely-chopped onion for five minutes. Add one-half cup chopped cold veal, one-half cup stale bread crumbs, tomato pulp, and salt and pepper to taste. Cook five minutes, then add one egg slightly beaten; cook one minute, stuff tomatoes with this mixture. Place in oiled pan, sprinkle with buttered cracker crumbs and bake for twenty minutes in a hot oven.

#### CANADA'S FIRST WOOD-PULP MILLS

The year 1866 marks the beginning of the manufacture of wood-pulp in Canada. In that year the first groundwork, or mechanical pulp, mill was built at Valleyfield, Quebec, and the first chemical pulp mill at Windsor Mills, Quebec.

The dog's head butterfly has an excellent likeness of a dog's head on each of its front wings. The eye-spots are in the right place.

Mills in the Netherlands have been ordered by the government to use at least 35 per cent. local wheat in their flour.

Italy's appropriation for education this year is 70 per cent. more than in 1932.

#### SASKATCHEWAN JUNIOR GRAIN JUDGES

One girl and three young men were selected to represent Saskatchewan in the junior grain judging contest at the World's Grain Show from this group who took part in the final elimination contest at the University of Saskatchewan. Reading from left to right in the rear row are William S. Hawrylak of Maple Creek, Edgar Lake of Turtleford, John McKay of Govan, Leonard Weber of Vawn, and in the front row, Roy C. Mathison of Boundary, David Clark of Inchkeith, Isabel Hutcheson of Regina, Mabel Anderson of Regina, and James H. Bridge, instructor.

Highest points were secured by Isabel Hutcheson, Regina; W. S. Hawrylak, D. Clark and R. Mathison. These four will receive further instructions at the University of Saskatchewan and three of them will represent Saskatchewan in a contest that will include teams from all the Canadian provinces and many of the states to the south.

#### JESUS TRANSFIGURED

Golden Text: "And the Word became flesh, and dwelt among us, and we beheld His glory, the glory as of the only begotten of the Father; full of grace and truth."—John 1:14.

Lesson: Mark 9:2-9; Hebrews 1:1-9.

Devotional Reading: Hebrews 1:1-9.

Explanations and Comments

The Transfiguration; verses 2-8.

The Transfiguration took place about a week (six days) after Peter's first announcement of Jesus as the Son of man, and the second time of the announcement of Jesus as the Son of God.

The Gospel historians are not wont to be so careful in their indication of time, but the sequence of events signifies in effect: "While the foregoing communications and discourses concerning the cross were fresh in the thought of all, the wondrous event we are about to relate took place."

The date is, in fact, "a fingerpost pointing back to the conversation on the passion and saying: 'If you desire to understand what follows, go back to the events before.'

The disciples had naturally recalled from the thought of a cruel and shameful death of their Lord. Deeply must have setze them. Their faith must have been shaken.

The disciples had naturally recalled from the thought of a cruel and shameful death of their Lord. Deeply must have setze them. Their faith must have been shaken.

The disciples had naturally recalled from the thought of a cruel and shameful death of their Lord. Deeply must have setze them. Their faith must have been shaken.

This is what is busy Manitoba boys are doing last year: "We started the tomato plants in the house in the middle of March" she says. "We picked 60 pails of tomatoes. We had ripe ones every day for two months, and I think we must be encouraged, must see their Lord glorified. There was another fact also: Jesus himself needed strengthening.

"Prayer leaves it mark on the character, on the very face. The look of care, as Dr. Glover says, relaxes into the look of joy when he loves."

"It is a chilid and frost-bound disposition," to quote Dr. Henry Van Dyke, "which prefers to enjoy its happiness best when alone. The presence of a friend can bring with us, even though imperfectly—the mere silent presence of a friend—is something which enhances pleasure and diminishes sorrow in every true and noble heart."

"Prayer leaves it mark on the character, on the very face. The look of care, as Dr. Glover says, relaxes into the look of joy when he loves."

### Home Grown Vegetables

Need for a Good Garden For Every Family in the Community

An excellent work is being carried on by the Extension Service of the Ministry of Education. Miss Thompson, of the Women's Division, is directing an effort the object of which is to stimulate an interest in the home vegetable garden. The suggestions offered come at a time when everyone realizes the need for greater economy. Miss Thompson stresses the desirability of a good garden for every family in each community. In a circular sent out from her department, she says:

What can you do, individually or as an organization, to help the people in your community realize the importance of an abundant supply of home-grown vegetables as a means of providing economic security?

A good garden, supplemented with canning, drying and storing, will help to insure appetizing and nourishing meals during the whole year. Spring is the time for sowing, what is to be done must be done quickly. Many people have already planted the first seeds.

Following are some suggestions for your consideration:

Begin at home. Plan to have a good garden and to fill your own cellar.

Get in touch with your neighbour and talk to him about growing more vegetables and filling their cellars for next winter.

In every community there are individual men and women who have exceptional gardens who grow vegetables under almost all conditions. They have the knowledge which the less experienced need. And they are always ready to share their knowledge with others, and to give in the most generous way "a helping hand."

Are there people in your community who may require assistance in procuring seed?

This is what is busy Manitoba boys are doing last year: "We started the tomato plants in the house in the middle of March" she says. "We picked 60 pails of tomatoes. We had ripe ones every day for two months, and I think we must be encouraged, must see their Lord glorified."

"In all fruits, vegetables, pickles, jams, meats, etc., I can afford to buy a well filled as that of my thirty mother and grandmother. It holds food for the whole winter, yes, something for every day and every meal.

True food substances which are a necessary part of our food. If we omit them, we undermine the growth of children, and shorten the life of adults. Which included in the diet they build up vitality, thus increasing resistance to disease; they provide necessary nourishment for the blood, bones and teeth of the body, which are invaluable as means of regulating body processes.

Are there people in your community who may require assistance in procuring seed?

Abundance Of World's Goods Not Made One Rich

One of the richest men in the world died in London the other day. He wasn't at all famous, and he only left \$400 in actual cash. But he was one of the world's richest men, just the same—and if you don't believe it, look at the final paragraph of his will. It read: "I have had a wonderfully happy life and I thank God for a boon of life" and a little earlier in the will occurred this sentence: "I only wish that I had been more worthy of the affection lavished upon me from birth by my father, mother, uncles, relatives and later by my dear wife, my children and my friends."—Calgary Albertan.

Taking a patch of skin ready for grafting, they ground it, dumped it in a modified salt shaker and then sprinkled it over the exposed wound.

Skin stuck fast and grew, spreading until the desired surface was covered with normal tissue.

"This," said Dr. Herman, "is like sewing a seed instead of transplanting a tree."

It didn't seem to make any difference, he said, whether the particles of skin fell "right side" up or down, the skin grew just the same.

Before he explained, it was customary to cut pieces of skin about the size of a postage stamp and fit them carefully over the damaged area. Even if the pieces stuck, scars often showed at the edges.

**Binder Twine Ball**

Binder twine is manufactured with 500, 550, 600, or 650 feet of twine per ball. Under the Skin Act, which is administered by the Dominion Department of Agriculture, every ball of binder twine sold in Canada, is required to be labelled with the name of the manufacturer or dealer and the number of feet per pound.

The S.S. Madras City in February of this year loaded 251,000 bushels of grain and was ready for sea in 8 hours and 40 minutes, setting a new record for the port of Vancouver.

**PATENTS**

### What to Roll...

That is the question . . . until you discover how easily you can roll a more enjoyable cigarette with Ogden's Fine Cut Cigarette Tobacco.

Easy rolling! Yet, that's only half the story. Wait till you light up! Then you'll know why Ogden's Fine Cut have become first choice with so many men who roll their own.

Ogden's Fine Cut is a real cigarette tobacco . . . the kind that sells on its merits. No need to take our word for it. Just try a package . . . use "Chantecler" cigarette papers with it.

### New Method Of Skin Grafting

Just Particles of Skin On Open Wounds

Research workers of the University of Cincinnati College of Medicine added a modification of the humble suture to the implements of the surgeon.

It's used in skin-grafting, that delicate operation whereby skin is transplanted to restore burned or otherwise damaged tissue.

Not always successful, the method of grafting now generally in use didn't satisfy the medical research men of the university here. Dr. Lou's Herman said. Sometimes the transplanted skin wouldn't grow. When it did, scars often showed.

Taking a patch of skin ready for grafting, they ground it, dumped it in a modified salt shaker and then sprinkled it over the exposed wound.

Skin stuck fast and grew, spreading until the desired surface was covered with normal tissue.

"This," said Dr. Herman, "is like sewing a seed instead of transplanting a tree."

It didn't seem to make any difference, he said, whether the particles of skin fell "right side" up or down, the skin grew just the same.

Before he explained, it was customary to cut pieces of skin about the size of a postage stamp and fit them carefully over the damaged area. Even if the pieces stuck, scars often showed at the edges.

**Binder Twine Ball**

Binder twine is manufactured with 500, 550, 600, or 650 feet of twine per ball. Under the Skin Act, which is administered by the Dominion Department of Agriculture, every ball of binder twine sold in Canada, is required to be labelled with the name of the manufacturer or dealer and the number of feet per pound.

The S.S. Madras City in February of this year loaded 251,000 bushels of grain and was ready for sea in 8 hours and 40 minutes, setting a new record for the port of Vancouver.

### CHAPTER VIII.—Continued.

Presently Haskell turned around, smiling pleasantly. "I was disgruntled about something when you first came in, corporal. You really have patrolled hard for several months. I'm sorry I snapped at you. You can have your three days off whenever you like. You want to start tomorrow?" And when Bill nodded eagerly, "Very well, I'll throw in the rest of this evening too. By the way, when you go past barracks ask Whipple to step down here."

"Snakes!" Bill breathed to himself, as he thanked Haskell and went out the door. "That Spring-head Johnny must be winding up to ask a favor of me, or something. But I've got my three days to help Alan out. Lord, I hope Alan shows up during my free time. He might maybe let me go along on his trick."

With no suspicion of the ugly truth, he turned up the twilight slope.

When Whipple came in, Haskell ordered him to close the door and pull down the window, to guard against possible eavesdropping. Then he tersely explained the situation. He added:

"Hardsock will probably steal some more gasoline and oil tonight. What he's already stolen isn't enough for a plane to do much maneuvering on. I want you to watch him stealing that stuff so that you can be a witness. He'll probably have time to take those drums only a couple miles from here tonight. Tomorrow he'll take all of it on to the place where he's to meet Baker. He's been sneaking it away little by little when he had the chance, and hiding it close by; during his three days he'll take it to the meeting place."

You go down to the river bank now to those two tepees and get that Indian called Ogi-Tomax. You remember Hardsock thrashed him one time last winter for carrying a spear club and beating his wife. He's got a personal interest in this; he's just the man we want. Take a carton of my cigarettes with you and a little rum as a silence present. I'll personally give him five dollars a day. Do you understand so far?"

Whipple nodded. Haskell went on: "You and the Indian are to shadow

### SIMPLY WORN OUT?

Take Lydia E. Pinkham's

Vegetable Compound

Can anything be more wearing for women than fatigue? You have no time to be sick . . . you are tired . . . sitting all day at a desk . . . you are worn out when something snaps and you find yourself unable to move.

Lydia E. Pinkham's Vegetable Compound will help you. Its tonic action will make you feel strong again. It will make your daily tasks seem easier to you.

98 out of every 100 women who report to Lydia E. Pinkham's say they are helped by her Vegetable Compound. Buy a bottle from your druggist today . . . and watch the results.

W. N. U. 1938

worst of it was that Buzzard was going to pay a heavy price for helping him on his thankless job. For himself he did not greatly care; he hardly thought of it. . . . He was headed north again, on his last patrol, his greatest patrol.

As they worked on north, they made moderately good time, but only by incessant care and worry. Engine trouble caused these delays. Again and again they sat down on some unknown river or lake and sweated for hours over the old motor. Fuel was a constant problem. Avoiding Mounted detachments and Royal Signal Corps stations like the plague, they dared stop only at wilderness-lodges posts where radios were unlikely and no police handy. They could never be certain of getting fuel, and what they did get was usually half bad.

Alan was looking forward to his rendezvous with Bill as the end of this worry-about gas and oil. Besides the fuel there at Goose Point, Bill had promised to cache some supplies up the Aloska near Joyce's home.

Alan was fervently looking ahead to meeting Bill at Em Traverse lake, to getting those precious supplies, to seeing Joyce again there on the Big Aloska.

All of his loyalty to the sister of his dead partner could not keep him from comparing Joyce's vital spirited personality with Elizabeth's leisure-bored enmity, and Joyce's two years of heroic sacrifice with Elizabeth's idle deliberate dependence.

On their last evening, worn out by a day of engine trouble and head winds and blinding rains, they alighted in a little spruce-buried lake on Silverleaf River, a short hundred miles south of Fort Endurance. Anchoring the plane, they paddled ashore, cooked a warm meal, and rolled up in their blankets for a few hours of desperately needed rest.

"Tomorrow's the day of days," Buzzard remarked, thinking of the supplies and a hard to maneuver from.

"It's the day of days," Alan agreed, but he was thinking of Joyce running down the path, bared-headed in the sun, to greet them. Tomorrow he would know if she was safe. Tomorrow, after the rendezvous with Bill the White Speedair would be dropping down upon the Big Aloska.

Buzzard was asleep almost instantly, but Alan, tossing in a useless attempt to sleep, finally got up, built a tiny fire, and sat beside it, thinking, a dead pipe in his teeth.

(To Be Continued.)

He Tried to Look Steadily at His Looming Marriage to Elizabeth.

As he sat there under the solemn spruce, he tried to look steadily at his haphazard marriage to Elizabeth, and decided his course. No longer blinded by idealism of her as a girl, he saw now, with pitiless insight, that all along she had not wanted him unless he had a good income and was out of the North. She might love him as well as she had ever loved anybody; but to her he was not greatly more than a means of getting what she wanted out of life.

The prospect of marrying her, when his respect was gone, made Alan wince. And his respect was gone with marveling eyes at a strange panorama. Evergreen forest, silvery lakes and silvery network of rivers far below, swam past at a speed to amaze him. In thirty minutes he was covering a distance which would take a whole day's hard travelling by canoe or komatik.

Knowing that if he and Buzzard showed up at a police post or larger trading center, it would mean a larger and sorry end of their flight, Alan planned to avoid such places reluctantly. He had a conviction that he and Buzzard were "wanted." They had left too many tracks in Edmonton—claws that would speedily be followed up. The police there, a wise live outfit, had certainly connected them with the theft of all that government property and had radiod instructions for their arrest.

Eventually he and Buzzard were going to be caught. It was as inevitable as sunset. Soon or late they would have to return to civilization and face the music. To Alan the

## WHOLE FAMILY WITH INDIGESTION

A mother of four writes:—"Myself and family of four all seemed to suffer from acidity, pains in the back, and other forms of indigestion. I suffered most of all. But after we had been taking Krusche's Liniment for the last three months (we eat for anything, and all enjoy our food much better. We never have a trace of acidity or indigestion now. I am sure that it has no upsetting results. Whatever we may have to go without, we could not give up Krusche's."—(Mrs.) M.K. Krusche Suits with neutrals acid tablet. It is taken internally and gently expels it from the system. And by stimulating your organs of elimination to perfect regular action, Krusche's will prevent this harmful disease.

After that you'll experience no more misery after meals. Krusche's will keep your inside clean and serene, and invigorated blood will be sent coursing every artery to your body. You'll feel wonderfully energetic and well. As healthy and hearty as it is humanly possible to feel.

Now he was groping to set the honest and righteous thing for him to do. He wondered whether it would be courage, or a weak yielding to desire, for him to break with Elizabeth and sweep aside the obligations binding him. There was right on both sides. Elizabeth was waiting for him; he had promised to marry her and take her out; he had burned his bridges and committed himself to that Victoria job. Yet it was wrong to enter a loveless marriage that would bring tragic unhappiness. It was wrong to marry Elizabeth, when his whole-hearted respect and love went out to Joyce McMillan.

In the lonely anguish of his thoughts he laid his decision more or less in the hands of time. He felt he must see Joyce again before he could take a decisive step. If he did capture those six criminals and so cleared her father, she would be grateful with all her heart. He meant to tell her about the tragic happening which had bound him to Elizabeth. If he could win back that old intimate comradeship with her and they could begin anew, then the righteous ways to put Joyce's happiness above Elizabeth's.

(To Be Continued.)

### Little Helps For This Week

"Wait on the Lord, be of good courage. He shall strengthen thy heart, wait I say on the Lord."—Psalm 27: 14.

"He giveth power to the faint, and to them that have no might He increaseth strength."—Isaiah 40: 29.

Should we feel at times disheartened and discouraged, a comforting thought, a simple movement of heart towards God will renew our powers. Whatever He may demand of us He will give us at the moment the strength and the courage that we need.—Fenlon.

We require a certain firmness in all circumstances of life, even the happiest, and perhaps contradictions come in order to prove and exercise this. If we can only determine so to use them, the very effort brings back tranquility to the soul, which always enjoys having exercised its strength in conformity to duty.—Wm. van Humboldt.

### An Interesting Exhibit

Exact Replica Of Standard Elevator For World's Grain Show

An exact replica of a standard grain elevator will be one of the interesting exhibits at the forthcoming World's Grain Show at Regina.

The exhibit will form part of the display of the Searele Grain Company and the model will be constructed by the company's building superintendent.

The model will include every detail of machinery, legs, dump and spouting. It will be built to scale and will be operated by an electric motor with many of the parts made by hand.

The Easiest Way

The Fort William Times-Journal says one of the reasons why the world is so loaded down with debt is that it is so much easier to seek for new forms of taxation than to study new economies. Governments have much the same mentality as the fellow who gave a note in settlement of an account and then murmured, "Thank God that's paid."

Opening the door of a refrigerator raises the temperature from one to three degrees.

Old Lady (to policeman)—"I've lost my canary. Would you mind notifying the flying squad?"

## Quality Cattle For Market

Red Label Beef Association Of Southern Alberta

The Government of the Province of Alberta has recently introduced a new feature in connection with the marketing of cattle. This feature is the marking of live cattle for market with a registered trade mark on each animal. The trade mark will be "RL" in a six-inch circle in red paint and will stand for "Red Label". The Red Label Beef Association of Southern Alberta has secured a Federal Government trade mark for Red Label beef animals. The trade mark can only be used on animals which grade up to a certain standard and the development is expected to be particularly important in the marketing of Alberta cattle in Great Britain.

Another report from the Alberta Department of Agriculture states that the Province had a heavy year in hog marketing in 1932 and has come to be recognized as one of Canada's principal hog-raising provinces. More than 1,000,000 head, or over 34 per cent, of the total for all Canada, went to market last year from farms in Alberta, an increase in the provincial proportion from 25.63 per cent. three years ago. Last year \$80,000 head of live hogs were shipped out, mostly to Eastern Canada, and 425,000 head were slaughtered within the province.

## For Creamed SOUPS AND SAUCES

If you have not yet tried St. Charles Milk you will be surprised at the improved flavor it gives to soups and sauces. It is handy and economical too and with it you can make soups and sauces that your family will enjoy.

Always ask for St. Charles by name and then you can be certain that you are getting the best evaporated milk.

**St. Charles**  
UNSWEETENED EVAPORATED

## The Silver Lining

Future Holds Better Things Than Victorian Age Could Imagine

"Have you ever thought that although every type of luxury and labor-saving device is available in our homes, our houses lack the comfort of those Victorian days?"—Sir Mark Webster Jenkinson. There is something to be said for a draughty palace against a warm hutch, something to be said for the comradeship of large families, something to be said for very square meals—slirlions and ginger puddings—for grand pianos, for four-posters, for thick carpets, and for plenty of head-room and elbow-room. And there is much to be said for the spirit which went with them, the feeling of security and comfortable future. Our age is one of flats and small houses, of most of the comforts described by Sir Mark Jenkinson, and we live in a most Georgian discomfort of mind. But when the last thunder has rung, the last shower has passed and we come into a cool, clear world again, we will build houses for ourselves of a comfort and convenience of which Sir Mark's Victorians never dreamt. —Leeds, Yorkshire Post.

## Earthquakes Predicted

Look For Earth Tremors In The Region Of Great Lakes

Severe earthquakes in the Great Lakes region and the St. Lawrence Valley are almost certain to come, in the opinion of Prof. William Herbert Hobbs, University of Michigan geologist. Prof. Hobbs also forecasts shocks for the lower Mississippi Valley and southeastern states.

In an interview, Prof. Hobbs said scientists can name the places but not the times of future earthquakes.

Chinese universities buy an average of 50,000 volumes annually from a London bookseller, which has customers in every country.

Hens require a well-balanced ration and a good supply of drinking water to ensure good egg production.

An inter-island air service has just been inaugurated in the Philippines.

## FOR ANY PAIN

Have you ever found any quicker relief than this?

Anyone can take Aspirin, for doctors have declared these tablets perfectly safe.

And there is no quicker form of relief for any pain.

It is well to remember these things when anyone tries to persuade you to try anything in place of these tablets.

Aspirin may be taken as often as there is any need of its' comfort: to stop a headache, throw off a cold, drive away the pains from neuralgia, neuritis,

tis, rheumatism, lumbago, etc.

Whenever you take Aspirin you know you are going to get immediate results—and you know there will be no ill effects. You know what you are taking.

Why take chances on some form of relief which may not be as swift—may not be as safe? The new reduced price of bottles of 100 tablets has removed the last reason for ever experimenting with any substitute for Aspirin!

Aspirin is a trademark registered in Canada

## FERNIE AT THE CROSS ROADS

That pleasant little city of Fernie situated at the western exit of the mountain defile known as the "Crows' Nest Pass," now in the news because of the threatened loss of its principal industry, is no stranger to crisis. Strikes and fires have been overcome but the principal loss in recent years has been occasioned by the substitution of oil fuel for coal by the Great Northern railway. A large consumption of coal by the railway provided jobs in Russia charged with sabotage previous to the trial.

"We deplore the action of the British government in taking such apparently prejudiced action in regard to the arrest of certain British subjects by the railway provided the Fernie collieries with an easy market and a direct line of the railway connected the city with the lines across the border in Washington state. When that market was lost, and the output of the mines was much curtailed, there being no substitute available, Fernie has other industries, such as lumbering and saw mills and a railway divisional facilities, knowledge of which may offset the fear

that it will be reduced to the importance of a flag station. But there is no doubt at all that the closing of the Coal Creek Collieries will involve a considerable reduction in the city's population and consequently in its business.

All travellers through the Crows' Nest Pass appreciate the amenities of Fernie. Bright and neat in its appearance, or easily in its management, offering well-conducted stores, hotels and other business places, it affords a refreshing contrast to the gloominess of some other places in the Pass. Michel-Natal, for instance, where the operations of the coal mining company are scheduled to be centralized, straggles along the cliff in the mountains, is overshadowed by the peaks and forced to a line of development along a single street. Fernie, however, has no such circumscription. It is the largest and most important city in the southern part of British Columbia, east of New Westminster. It is inconceivable that this threat to its prosperity will be allowed to mature without government attempts to avert it.

Time was when the mines of the Crows' Nest Pass Coal Company at Fernie and Michel produced and sold over 1,000,000 tons of coal and more than 250,000 tons of coke annually. For thirty-five years the company has been operating, reaching its climactic in the years 1910-14. Besides the coal operations, the company conducted the Crows' Nest Pass Electric Light and Power Company and the Morrissey, Fernie and Michel Railway Company, never paying more than 10 per cent, and in some years omitting dividends altogether. The average return by the company to shareholders over its period of existence has been about three per cent per annum, not an excessive return by any count. Its property holdings cover 240,600 acres and the main mines and collieries are at Coal Creek, five miles from Fernie, and at Michel, which is twenty-four miles northeast of that little city.

G.E.L. in Ex.

## TICKLISH TONGUE-TWISTERS

A quick cricket's gig while slips.

Give Mr. Snipe's wife's knife a wife.

She made a rash dash to wash a hash dish with the slashed meshes of a silk hash.

Six frisky squirrels sifting mixed squashed peaches.

Around the rugged rock the ragged rascal ran running a rural race.

Too true, too; too true, Hugh.

A properly peppery copper coffee pot for a proper Kaffir copper with a shocking whooping cough.

NEW ORGANIZATION  
REGISTERS A PROTEST

Protesting against the pre-judged, narrow minded nationalism now being fostered in Europe, particularly in Germany, the Canadian Civil Liberties Protective Association, went forward at a recent meeting held in Edmonton, Alberta, as follows:

"We strongly protest against the action of the present German government in connection with the Jewish population of that country, seeing in his action a tendency which, under the strained conditions in Europe and in this country, will promote rather than allay general dissatisfaction."

"We protest against the invasion of human rights and liberties by the government of any country directed either against their own citizens or against the citizens of any other country."

"We deplore the action of the British government in taking such an apparently prejudiced action in regard to the arrest of certain British subjects by the railway provided the Fernie collieries with an easy

market and a direct line of the railway connected the city with the lines across the border in Washington state. When that market was lost, and the output of the mines was much curtailed, there being no substitute available, Fernie has other industries, such as lumbering and saw mills and a railway divisional facilities, knowledge of which may offset the fear

that it will be reduced to the importance of a flag station. But there is no doubt at all that the closing of the Coal Creek Collieries will involve a considerable reduction in the city's population and consequently in its business.

For the promotion of orderly social progress the Canadian Civil Liberties Protective Association, stands on the general principle that all a thought on matters of public interest should be freely expressed. The punishment or suppression of mere opinion without overt acts is never in the interest of orderly progress, and makes for violence and bloodshed. The principle of civil liberty embodied in our British traditions must be asserted in its application to conditions in Canada."

## ALBERTA CATTLE

## FOR OVERSEAS

Alberta cattle raisers are looking for a fairly substantial shipment of cattle from the province to the British market again this year. Last year, the 25,000 head exported from Canada overseas, it is estimated nearly one-quarter came from Alberta feed lots and ranches. The year previous some 8,000 head were exported. This year it is possible between 7,000 and 8,000 head will find their way to the British market, out of the 30,000 or more head which were fed in the province during the past winter on special feed lots and under ordinary farm conditions. Alberta's total shipments of cattle out of the province during 1932 to other provinces and to export were over 96,000 head, and in 1931 were just over 100,000 head.

## OF INTEREST TO PROSPECTORS AND MINERS

Because of the great interest that is being taken in gold mining in the Cariboo district, British Columbia, prospectors and miners will be pleased to learn that the Geological Survey, Department of Mines, Ottawa, has issued a reprint of the geological map (No. 2046) of the Barkerville area.

The distribution of the rock formations is shown in colors and the map is to a scale of one mile to the inch. Copies may be had by application to the Director, Geological Survey, Department of Mines, Ottawa, or to the branch office of the Geological Survey, 511 Winch Building, Vancouver, B.C.

A party of twenty-six naval reservists left Saskatoon recently, enroute to Esquimalt, where they will undergo a period of cadet training at the Canadian naval station.

Mrs. Cobbett and daughter Sheila are expecting to leave for Vancouver over the week end. We understand that they both will proceed shortly to England.

BLAIRMORE UNITED CHURCH  
Rev. Albert E. Lure, Minister

## SERVE THE CHURCH THAT THE CHURCH MAY SERVE YOU

## SPECIAL EASTER SERVICES

11 a.m.—PUBLIC WORSHIP.  
Senior School are asked to attend in good numbers.

2 p.m.—JUNIOR SCHOOL.  
7:30 p.m.—EASTER PAGEANT and COMMUNION SERVICE.

At the morning service the Easter message will be preached and the Junior Choir will render special Easter music.

In the evening the Junior C.G.I.T. led by Mrs. A. E. Lure, will present a beautiful pageant: "The Challenge of the Cross."

The celebration of Holy Communion will follow the evening service.

## ST. LUKE'S CHURCH NOTES

## THE EASTER FESTIVAL

Blairmore, Alberta,

April 10th, 1933.

Dear Friends: The Festival of Easter, with its glad promise of New Life in Christ Jesus, and its assurance of our Union with Him through our faith and life, is once again drawing near us.

I cannot more fully convey to you this glorious message, nor more fittingly describe its wondrous import in these anxious days than by quoting the following lines:

"Into some lives God sends a cloud of sadness; Over some homes there falls the shades of night; Yet there is comfort in the Easter gladness."

For those who through the darkness wait for light: Turn to the Strength in your heart; Watch for the dawning through your night of pain."

After the clouds God's sun shall bring the morn; His Easter joy shall bring you hope again."

But the Easter festival is also a summons from our risen Lord to a more consecrated life, a more practical faith, more fervent loyalty to Him through His church, which is His visible vehicle for the fulfillment of His great promise and purpose for mankind.

May this Easter be the occasion of the full "offering of ourselves, our souls and bodies," to be used by Him as He may deem best, in His service; and as an inspiration to us to give liberally of our means as a thank-offering for the extension of His Kingdom here in our midst.

This service this Holy week and Easter will be:

GOOD FRIDAY: 7:30 p.m.—Evensong and story of the Cross.

EASTER DAY: 10 a.m.—Sunday School in the hall.

11 a.m.—Holy Communion in the church.

It is the duty and privilege of every confirmed member of the church to be present at the Lord's Table at Easter.

With every good wish for a happy Easter, and trusting that you will endeavor to be present with us on these days, I am,

Your faithfully in His service,  
A. S. PAULTINGTON, Rect.

## DEFINITIONS

Col Hugh Clark gives the following timely definitions:

Income tax—An outgo on income.

Sales tax—A tax on purchases.

Corporation tax—A tax on a body of men not necessarily large.

Surtax—"Sur"—French, for over.

A tax on men who think they are overtaxed.

Excise—A tax that no government will excise.

Customs—A tax that has become a custom.

Cosmetics—A custom that has become a tax.

## CORRESPONDENCE

Blairmore, Alberta,  
April 7th, 1933.

Editor,  
Dear Sir—I am submitting to you, and to your readers, remarks on the coal business of Alberta.

Short of Nationalization, not feasible for sometime yet, "a change of heart among the coal operators is necessary," says Hon. Browne.

This suggests the appointment of a doctor instead of surgeon—either he will cost the maintenance of five hundred brain-fed vagabonds.

I propose a regulation enacted to

curb the mining of coal under any

roof and especially under the Kootenay roof, unless producing a high

percentage of pillar coal, is not

merely profitable to the country or the

operators. Once a pillar line is tickled, it must react with regularity else the roof will spill edges, then

sometimes they foam and refuse to

work. At such times they need to be

switched. They need guiding and they

require a man to feed them. They all

smoke, but most characteristic of all

is that they are much steadier when

they are hooked up."

A transient woman appeared before

court here last week, charged with

leaving an unpaid balance of one dollar,

due a Coleman hotel, in February.

She pleaded guilty and was assessed

a fine of \$20 and costs.

But it's also a fact that when a gap of sufficient span is cut, the roof will collapse after a while, and the unbroken parts of the roof will weigh less on the next blocks. Merely complying with the regulation, we have

experienced pillar foremen who will

draw the advance plan of extraction and obtain the result: A nice flop

while the miners are enjoying the sun

and while a few shipments are made from a coal pile of moderate size.

The fact that storage is expensive

is more than offset by inherent economies derived from compact mining and low cost of fuel as follows:

1. Economies in equipment and power.

2. Economies of materials for timbering, maintenance and repairs.

3. Economies in the preparation of coal.

4. Economies accruing from the full recovery of coal.

5. Wealth is a reward for the conservation of life.

As to the side lines opened to the miners during their off-season, one can mention:

The manufacture of house coke from the screenings of coking coal.

The manufacture of bricks and cement with the waste heat of the ovens.

Indeed, all goods made from Alberta raw products should be manufactured in Alberta, seeing that fuel is plentiful for factory purposes.

In that connection, it is interesting

to note that a truck load of steer hides is bought in Alberta for the price of one pair of shoes manufactured somewhere else. (They say:

"A sheep hides with the wool sell for a sandwich and a cup of coffee. I question whether you will get that much.")

My friend works for a day in the mine, but caves for early imported limestone. His day's wage pays for just a few heads of that. He should make it himself, with a little Alberta fuel.

Spare time at home may be spent on an electrically driven loom, to make cloth from Manitoba flax or Alberta wool.

A municipality tired of handling relief is naturally interested even in small schemes—and is apt to get busy when the town loses its coal mine through a strike or creeps, the result of erratic mining. Not to be on the verge of an early finish, the mine should have been operated on full time during the commercial season, and its pillar line should have been so laid out as to cause a roof settlement some time during the off-season when repair work is done. But it is no use crying over split milk.

Better times are in sight for the coal business of Alberta.

Reciprocity with the Democratic government of U.S.A. will move us along better ways as well as some of our coal into the western states. For

a start: What about an alliance between natural and coal gas interests under an enforced conservation of natural gas. (Unless we delight in staying back and gazing on like hornless contented cows.)

Yours truly,

MARC PIARD.

## LOCOMOTIVE IS "SHE"

Why is the locomotive called she? A road foreman of locomotives employed on the Canadian National believes he has the answer. He says:

"There are many reasons. For instance, they wear jackets and yokes, pins, shields and stays. They have

good numbers.

Editor, Blairmore, Alberta

Voted into first place and bought in greatest number every year for eighteen years!

For nearly two decades it has been possible to say that more people ride on Goodyear tires than on any other kind.

The only sensible reason is that Goodyear tires give greater mileage and all-round service.

### KING WHEAT AND WHAT HE CAN DO

A local citizen whose motive power is supplied by wheat, has whiled away the idle hours before seedling, in estimating the cost of a few of the knick-knacks of life. He is figuring out what he should sow this spring in order to ensure his circulation for the coming year, and being neither optimist nor pessimist, he bases his finding on wheat at 30 cents a bushel or half a cent a pound.	1 pair overalls (you just must have them) 300 lbs
1 license for Lizzie (she wants it) 300 lbs	1 pound beefsteak 40 lbs
50-lb sack flour 190 lbs	1 tooth session with the Doc 1000 lbs
1 tooth filled (with or without pain) 200 lbs	1 doz safety pins (you just know who wears them) 2 lbs
1 year's lodge dues 2000 lbs	1 year's interest on \$6000 mortgage (but should we pay more?) 84000 lbs
1 gallon gas (the kind that does not stir vain ambition in the skunk) 60 lbs	1 oz strychnine (for the gophers, perhaps) 170 lbs
1 loaf of bread (no staying qualities) 16 lbs	VULCAN ADVOCATE
1 True Romances (for the Quiet Hour) 50 lbs	NO GASOLINE COMMISSION
1 package gum (to speed the ploughing) 10 lbs	That covetous eyes should not be cast by governments upon the gasoline business, just because that business happens to be profitable, is the official attitude of the provincial government of Quebec. There is no likelihood of any government gasoline commission being formed to market motor fuel, because Quebec feels that \$5,000,000 in taxes derived last year from gas tax is all that should reasonably be expected of the motorist. Besides that, the government does not think it would make a success to gasoline-selling even if it tried the plan, as suggested by one of the legislature members. So there will be no Quebec government control of gasoline, and other provinces will hesitate to consider such an idea in the light of Premier Taschereau's statement that a constitutional issue is involved.
1 hair cut (fodder crop and summer fallow alike) 70 lbs	Our bet is that Mayor Knight learned more from the once-over of the towns act than another well known citizen did from reading the bible through from cover to cover seven times.
1 tube shaving cream (preparedness) 100 lbs	Vincent McCourt, for seventeen years clerk for the Chicago board of education, was so far behind in salary that he asked for charity, which was denied him because he was employed. Temptation came. He took about \$1,600 in tax anticipation warrants and cheques to feed his family of eight children, and a judge sentenced him to serve ten months in jail.
1 bottle listerine (so our best friends won't have to tell us) 100 lbs	
1 powder puff (large size) 50 lbs	
1 hair garter, male (you just know he wears 'em) 100 lbs	
1 bargain silk hose (now make them last) 200 lbs	
1 pound sugar (and that's how we'll get it) 15 lbs	
1 lipstick (not kiss-proof, for home use only) 100 lbs	
1 picture show (Mickey Mouse thrown in) 60 lbs	
1 hour with you, Mr. Mechanic 200 lbs	
1 pound coffee (reduced) 100 lbs	
1 pair 60-cent socks (for stylish montees) 10 lbs	
1 pound bacon (bear the squeal on the hoof) 40 lbs	
1 hired man for day and feed 200 lbs	
1 pound butter 46 lbs	

### "AIN'T IT THE TRUTH?"

Over the hill trailed a man behind a mule drawing a plow. Said the man to the mule:

"Bill, you are the mule, the son of a jackass, and I am a man made in the image of God. Yet, here we work, hitched up together year in and year out. I often wonder if you work for me or I work for you. Verily, I think it a partnership between a mule and a fool, for surely I work as hard as you, if not harder. Plowing or cultivating we cover the same distance, but you do it on four legs and I on two. I therefore do twice as much work per leg as you do."

"Soon we'll be preparing for a corn crop. When the crop is harvested I give one third to the landlord for being so kind as to let us use this small speck of God's universe. One third goes to you and the balance is mine. You consume all of your portion with the exception of the cobs, while I divide mine between seven children, six hens, two ducks and a banker. If we both need shoes, you get 'em. Bill, you are getting the best of me and I ask you is it fair for a mule, the son of a jackass, to swindle a man, a lord of creation, out of his substance?"

"Why, you only help to plow and cultivate the ground, and I alone must cut, shock and husk the corn, while you look over the pasture fence and hee-haw at me."

"All fall and most of the winter the whole family, from granny to the baby, picks cotton to help raise money to pay taxes and buy a new harness and pay the interest on the mortgage on you. And what do you care about the mortgage? Not a damn!! You ornery euss, I even have to worry about the mortgage on your tough, ungrateful hide."

"About the only time I am your better is on election day, for I can vote and you can't. And after the election I begin to realize that I was fully great a jackass as you and your papa. Verily I am prone to wonder if politics were made for men or jackasses, or to make jackasses of men."

"And that ain't all, Bill. When you're dead, that's supposed to be the end of you. But me? That person tells me that when I die I gotta go to hell for ever. And most of what he says keeps me from getting any kick out of life."

"Tell me, Willyum, considering these things, how can you keep a straight face and look so dumb and solemn?"—American Journal of Veterinary Medicine.

Mrs. J. M. Windsor and infant son Andrew left High River April 11th and for a few weeks at her old home in Forest, Ontario.

During the month of March, the executive of the Girl Guide Association entertained the members of the Girl Guide troop, Brownie Pack and leaders at a very delightful St. Patrick's Day supper, after which the girls enjoyed the evening with songs and games.

### RELIEF QUERIES?

A Norwegian publication of Western Canada suggests that all applicants for relief should be prepared to answer the following questions before appearing before the proper officials:

What is your real name?  
How many nicknames have you got?

Are you born? Why and where?

Are you married or have you in any other circumstances been a convict?

Why did you marry and where did you meet her in the first place?

Were you ever in love before you met your wife?

Are you supporting more than one wife?

Have you ever been working—and why?

Why did you quit your job, and why didn't you start again?

Had you any wages and what did you use the money for?

How much money have you in the bank or in the bed?

How many cars are you using, and how many houses have you got?

Do you play poker or do you prefer stock-market?

What kind of a position are you trying to fill?

What size shirts do you wear?  
How many weeks since your last meal?

How many meals did you have during the last five weeks?

Are your parents on relief? If not, why not?

How many nuts are there in your family, besides you?

Do you expect to be permanently on relief or is it just for a few years?

Comments on the foregoing are hardly necessary, except to say that the officers of the R.C.M.P. in this district have not the time at their disposal to indulge in seeking answers to such an array of superfluous queries.

### MC LAUGHLIN-BUCKS IN CLAY

Months before the new cars are produced they are developed and tested, step by step, in shop and laboratory.

McLaughlin-Buck engineers, stressing the incessant effort of engineers to outdistress others in the production of constantly better cars, tell how each proposed new car is first modelled in clay. The art and color department produces a model one-quarter actual size. The next step is a full-size drawing on a blackboard, after which working drawings are executed. Finally, the work of

the art and color men includes a full-size model of wood and clay mounted on a chassis, this model including everything that the eye would see on an actual car. The clay is painted and the model looks for all the world as if it were ready to be driven off for a week end.

There is a possibility of Calgary taxpayers coming out on strike.

Five policemen in "Toronto The Good" are facing charges of shop-breaking and theft.

As a beauty, I am not a star—  
There are others more handsome by far;  
But my face, I don't mind it,  
For I am behind it—  
It's the people in front get the jar.

Figuring that there should be no better market on earth, no less than seven travellers visited us during the week, endeavouring to sell red inks. Well, no doubt they got the idea from notices posted on poles along main street and other places, nearly all of which are of the Red variety.

Mother: "Where are those apples that were on the top shelf in the cupboard?"

Tommy: "Guess they are with the pie that was on the bottom shelf."

For generations, medical men have paid tribute to the sustaining, invigorating and health-giving qualities of properly brewed lager beer when taken in moderation, for workers in every field of endeavor whether mental or physical.

Scrupulous care in selection of ingredients and pains-taking supervision of an expert staff of brewers contribute to the excellence of Alberta beers.

## BELLEVUE HAPPENINGS

Mrs. C. Emmerson entertained a number of friends for bridge on Thursday afternoon.

The Bellevue First Aid class held their annual banquet in the L.O.O.F. hall on Friday last. The guests and members of the class sat down to supper at 6:30, after singing "O Canada." After supper, the following programme was enjoyed: Orchestra selection, piano forte solo by Albert Christie; speeches by Messrs. F. Padgett, G. A. Vissac, E. Royle, J. A. Brusett, N. McDonald, A. Hallsworth, J. J. McIntyre, Rev. Mr. Wood and Dr. Reinhardt; accordion solo by Albert Hovan; mouth organ solo by Laurie McLaugherty; orchestra selection. Mr. Padgett, on behalf of the class, presented Mr. Joe Morris with a Rolla razor for his services as secretary. Joe, on behalf of the class, presented the instructors, Messrs. F. Padgett, B. Milnes and J. Radford, with fishing basket, electric clock and eversharp pen, respectively. A pantomime, entitled "Shooting of Dan McGrew," trio by Andy Morris, Sam Radford and Dennis McLaugherty; initiation of new members. The happy gathering broke up after singing "Auld Lang Syne" and "God Save the King."

Norman Stewart, of the Royal Bank staff, is spending his vacation in Edmonton.

Mr. and Mrs. H. Meade were Lethbridge visitors on Thursday last.

Mr. and Mrs. Chiaravano and Mrs. S. J. Lemay were Calgary visitors for the week end.

Bill Cole, of Michel, was visiting his parents here Sunday last.

Miss E. Chiaravano is practice teaching at Pasbarg, Miss Dorothy Barlass is performing similar duties at Frank.

W. Serra is visiting at his home here.

W. Blinston, of Cranbrook, is a visitor here.

A number of young ladies held a party in the Catholic parish hall on Monday night. Dancing was enjoyed by all until the early hours of morning.

The Vimy smoker, held by the local B.E.S.L. on Monday night, was well attended.

Since our last issue, Mayor Knight has decided that, rather than accede to the demand for an increase in wages from thirty cents to fifty cents an hour, only necessary work will be done at the fifty-cent rate. It is understood clearly by the council that if they decide to grant a greater sum than thirty cents for relief work, neither the federal or provincial governments will shoulder any portion of the burden. The governments are prepared to bear a portion—the greater portion—if the rate is confined to thirty cents an hour, otherwise the whole responsibility for the larger amount will rest with the town.

A very pleasant evening was spent at the "Lank Homestead" on Saturday, April 1st. A number of the neighbors had been invited to spend the evening. It being "All Fools Day," the usual frivolities were indulged in, tricks were played on old and young and all kinds of jolly games in which all joined. A dainty lunch was served by the hostess and the evening closed with some piano music by Mrs. Freeman Lank, old songs in which all joined, the last one, "Thompson's Peanuts," sung by Mrs. Lank, being the best of them all. Every one had been watching the clock for sometime; so now it was time to say the "Good Nights" and thank the host and hostess for a very enjoyable evening, and all went to their homes voting both the Seniors and Junior Lanks ideal entertainers—Upper Basa River Note in Truro Weekly News.

## Local and General Items

Mr. and Mrs. C. J. Bundy were in town from Cowley yesterday.

Humor has it that Corporal Frewin is to be transferred from Nanton to Claresholm.

The Bassano school board proposes cutting down expenses this year by \$500. The municipal rate for the year is 26 mills, the school rate 10 mills.

Twenty-three years ago last Friday, Bob Edwards, of the Eye Opener, was arrested in Winnipeg for publishing obscene literature.

Cpl. Hugh Clark remarks: A lawyer denounces the tax on cosmetics as a tax on complexion. What he meant to say, no doubt, is that cosmetics are attacks on complexions.

Careful! The golf bug it out, and several were bitten in the early part of the week. The first symptom is an uncontrollable desire to smack a golf ball.

The flag flew at half-mast near the local telephone exchange on Tuesday of last week, out of respect for Hon. Frank Oliver, who was buried at Edmonton that day.

Major Knight states that it was not altogether necessary for them to import Gaston Bazille from Pontiac, as Albert Olsen and Joseph Howe, two fully-qualified electricians, were residing in Blairmore.

One of our readers asks why not publish a list of dog owners who have paid their tax for the year 1933. We are willing to devote space to such a list free of charge. It would be very interesting matter right now.

A controversy is raging in Vancouver over whether a single girl can live decently on \$50 a month. The Calgarian Herald remarks that many wives in Calgary are keeping a home going on less, without raging about it. And there are many families in Blairmore and the Crows' Nest Pass managing on less than that amount.

Three British musical experts, who will act as judges in the Western Canadian Music Festivals, have arrived in Winnipeg, from Montreal. They are George Dodds, conductor of the Newcastle and Gateshead Choral Union; Dr. Fred J. Statton, of the Sheffield Choral Society; and York Bowen, a well-known English composer and pianist. The party arrived in New York by the steamship Olympic. They will visit Winnipeg, Calgary, Saskatoon, Regina and Moose Jaw, and will remain in Canada for two months.

James L. Moody, oil operator, has entered action against the Bank of Montreal at Calgary, claiming \$1500 for a gold nugget that had been disposed of by the bank to satisfy his \$100 loan from that institution. Moody received, in addition to no knowledge of payment of the loan, a cheque for \$124.98, purporting to be balance representing value of the nugget. Moody claims that the value of the nugget did not lay in what it contained in gold, but was valuable as a specimen used for fine jewelry.

The Canadian Minister of Justice told the House of Commons last week a terrifying story of the dangers that the country was in by reason of the plottings of the Communists. Agents of Russia, it was stated, were very busy fomenting trouble among the unemployed and the distressed. One of our daily papers, commenting on these statements, told its readers that "every loyal person" would be ready to back the Government in its demands for special powers to combat this menace of Communism. However, claiming to be a specially "loyal person," we believe this while anti-Communist campaign is very largely bunkum, and that thousands of other "loyal persons" throughout the country are coming to see it that way, too. And we believe, also, that the everlasting prating about it, and the scaring methods proposed to keep it in check are doing more to stimulate such Communist sentiment as there is than anything else could possibly do. New Outlook.

All to be disposed of at Bargains that can't be beat.

### Nature Cannot Be Defied.

It is recorded in Holy Writ that God created man and gave him dominion over all the earth, over the fish of the sea, the fowl of the air, over every living thing that moveth upon the earth; in a word, over every thing which there is life, in matter, in spirit, and seed, in trees and plants. In his care and control of all things he has wages and must continue to wage, a never-ending battle, and he has waged it, on the whole, successfully, and with increasing efficiency as the years and centuries have come and gone.

Even so, his dominion over every living thing, and as a means of exercising control over them and to secure for himself the maximum of benefits and comforts therefrom, man has gone further afield and assumed control over many of the forces of nature. He has overcome the obstacles of mountains by building roads through them; he has brought great rivers to his service; he has dammed mighty rivers to obtain power, and has delved into the bowels of the earth for fuel and minerals to serve him; through his inventive genius he has overcome the handicaps of distance and space, making both the sea and the air serve his purposes.

So far, however, he has not attacked to control other laws of nature over which he was not given control and which, despite all his efforts, are and ever will be beyond his control. As a result of jealousies and rivalries developing as mankind increased in numbers, men quarrelled and fought among themselves. They divided into tribes, and later into national developments. In time, he has become so powerful that he is now devoting his entire energies to securing to himself a larger measure of control over the earth than that enjoyed by their rivals, and constantly warring with each other to obtain and retain such control.

As time passed, man became more and more complex, this struggle for control, domination, national existence for many, became more intense, but, with the progress of education and civilization it developed new forms, while not altogether abandoning the old idea of the application of physical force. Thus it came about that man made his greatest mistake in that he believed that the physical forces he could control and which it was never intended he should control.

The world was created for man—the whole world for the whole race of man. Its climate was varied, and with variations in climate there is variation in productive and methods of living. Each part having something to contribute to the welfare of man, earth, and all going to make up a completed whole. But we developed narrow tribal and nationalistic instincts and ambitions, himself off in groups into compartments, and sought to live unto himself, self-satisfied and self-contained, apart from the rest of the world. Such was it that he made his mistakes in that he did not fully understand himself, denying himself many of the benefits and comforts which unhampered himself, nature intended he should possess and enjoy. The whole race of mankind is now paying the price for that great error.

This primary error led to many others, and man set his ingenuity to work to correct the disastrous results of his first mistake. Having defied a great law of nature, he thought to correct that mistake by defying other laws. He conceived the mistaken idea that he could, by the mere enactment of his own man-made laws, substitute artificial political boundaries for the natural boundaries as defined by geographical facts. He had changed the course of rivers, and he had made the oceans serve his purposes, and in attempting communication and trade with each other? Why could he not change great areas of the world's surface intended by nature for agricultural pursuits into great manufacturing centres? Where nature designed that communication and trade should flow freely and spontaneously, he complicated the whole race of man is today mired in a morass of its own making. All men and all nations are floundering with no solid ground under their feet. In their difficulties and desperation they still blindly rely upon the enactment of one law after another, each a faint defiance of natural and unchangeable laws, to get them out of the mess. Instead of frankly acknowledging their initial mistake, wiping out their narrow nationalistic policies, and allowing the laws of nature to operate freely without restriction or attempted control by man, who, after all, cannot control them.

But man, though he could do it, and he proceeded to try, with the result that the whole race of man is today mired in a morass of its own making. All men and all nations are floundering with no solid ground under their feet. In their difficulties and desperation they still blindly rely upon the enactment of one law after another, each a faint defiance of natural and unchangeable laws, to get them out of the mess. Instead of frankly recognizing the blunders of the past, insists that the only way out is to commit an even greater blunder than has yet been committed, and that is to largely deprive man of his individuality, destroy his God-given powers of initiative and self-government, and submerge him in the political State itself which will direct, control and order him in all that he may do and how he shall live.

Man was not created to be so ordered and controlled. He was given a body, a mind, a soul of his own. He was to have dominion over all things; not over other men. Still, if he would, to have complete dominion over him. It has been tried before in this old world, and always fallen short. It always will. It is being tried again today under Fascism in Italy and Germany, under communistic socialism in Russia, under other forms of despotism government. In some cases less brutal. It may abide for a time, but it will sooner or later fall. And with it, because man is an individual, with a mind and soul of his own. His initiative will not be denied. Man will eventually get back to recognition and observance of nature's unchangeable laws. Then, and then only, will he again achieve happiness and contentment.

### Favor Sterilization Plan

Stand Taken By Lieutenant-Governor Of Ontario Is Commended  
The Toronto Local Council of Women and several clergymen joined in expressing appreciation of the stand, on behalf of sterilization of the mentally unfit taken by Dr. Herbert A. Bruce, Lieutenant-Governor of Ontario.

On recommendation of Mrs. R. G. Smythe, mental hygiene convenor, the local council of women wrote Dr. Bruce acclaiming his stand. Mrs. Smythe said what the province wanted was permissive and selective sterilization of the mentally unfit.

Rev. Canon Lawrence Skeay, Anglican, said there were "two or three thousand feeble-minded children in Ontario. We are all behind the Lieutenant-Governor and are proud that he has had the courage to speak his mind for the welfare of the people."

### Sugar Elevators

Raymond the First Place In Canada To Adopt This Plan

Sugar from this famous sugar beet growing country will be stored in elevators in the same manner grain is stored. Raymond, Alberta, is the first place in Canada to take such a step.

The Canadian Sugar Factories, Ltd., announced that they would build four elevators at a cost of \$50,000 for the purpose of storing 1,800 ring-necked pheasant to the Government of Saskatchewan, which will be distributed throughout the province.

About 500 tons will be kept in breeding pens at Moose Jaw; another 100 at Taber for breeding purposes, and about 200 generally in groups of five to farmers who have assisted in the trapping of Hungarian partridge for shipment to Dakota.

### Man Rides Sharks

Unarmed, Roy Wilson caught three sharks, from six to nine feet long, at Brisbane, Australia, recently. They had entered a bathing pool during a high tide. Wilson dived into the water, swam up to one of the intruders and scrambled upon its back, hooking his legs around its body, he "rode" it as it dashed up and down the tank. The shark finally gave up the battle through sheer exhaustion. The others were caught in the same way.

W. N. U. 1938

### Britain Rich In Minerals

#### Practically Every Known Metal Is Found In Empire

The news that the vast bards of iron ore in Northumbria are to be worked on a great scale calls to mind the fact that Britain is still one of the richest metal-bearing countries in the world. This remains true despite the fact that during the past half-century, the total value of minerals raised in Great Britain was about three thousand five hundred millions of pounds. Of this, coal represents about two-thirds; the rest comprises nearly every metal or mineral in common use, and a number of the rare ones. Cornwall and Devon still produce tin. Immense quantities of rich tin ore lie below the surface of the earth, but at present the miners cannot compete successfully with the shallow tin dredgers of Malaya and the open workings of Bolivia. Cornwall, too, has copper, antimony and arsenic, to say nothing of radium. There is a reef of gold-bearing rock under the Forest of Dean which contains enough gold to pay Britain's national debt. Under present conditions, however, it does not pay to work it.

### Scotland At Grain Show

Scottish Entry For Grain Exhibition At Regina

An entry of high quality oats, from a farm owned by a family for over 60 years, will be a challenge to the oat farmers of Saskatchewan at the forthcoming World's Grain Exhibition at Regina.

Officials of the exhibition announced that an entry has been received from Mrs. Maggie Eccles, of High Pinnock, Maybole, Ayrshire, the sample being registered in the oat section.

Mrs. Eccles operates a 230-acre farm close to the birth place of Robert Burns, the poet, and the farm has been in the same family for over 60 years, special attention being paid to production of the lower orders of human intelligence.

Jazz has enjoyed a long—far too long—as a popular craze on this continent and in Europe. But from all quarters reports have been pouring in for a year or so to the effect that its popularity is on the wane; and there is ample evidence that this is the case. Such a patent prior of a return to cultural ideals is welcome on many grounds, but on none more vitally than that it presages the abolition from the home of one of the most inane, discordant and inartistic forms of noise yet conceived by humanity.—Montreal Star.

### "THESE HARD TIMES"

"The hard times and scarcity of money makes it hard to maintain a decent standard of living. One of the ways to save on clothes is by renewing the color of faded or out-of-style dresses, coats, stockings, and underwear. For dyeing and tinting, it is always the Dylon Dyes. These are the most economical ones by far because they never fail to produce results that make you proud. Why, things look brand new again. Try them with Dylon Dyes. They never stain, streak, or run. They go on smoothly and evenly, when in the hands of even a ten year old child. Another thing, Dylon Dyes are safe to use. No harm to cloth or leave it bare as some do. They deserve to be called 'the world's finest dyes'!"

S.B.G., Quebec.

### Trade Fish Egg For Pheasants

#### Ring-Necked Pheasants Introduced Into Saskatchewan

In return for 5,000,000 pickerel eggs and a number of Hungarian partridge the State Government of North Dakota recently shipped 1,800 ring-necked pheasant to the Government of Saskatchewan, which will be distributed throughout the province.

About 500 tons will be kept in breeding pens at Moose Jaw; another 100 at Taber for breeding purposes, and about 200 generally in groups of five to farmers who have assisted in the trapping of Hungarian partridge for shipment to Dakota.

### Good Ads Always Pay

#### Give Their Daily Message To the Buying Public

"Good advertising will sell goods in bad times," says Louis Tenenbaum, production manager of R. Macy & Co., the famous department store of New York. The Macy executive have proved it to their own satisfaction. In their recent anniversary sale they found that well planned advertising brought crowds to the big store.

Experienced executives of successful stores know that "good ads always sell." That is why they keep hammering away, telling their message to the people day after day.

European scientists have discovered that some of the commonest fresh water fish, including trout and minnows, can change their color according to background.

A total of 1,102,166 motor vehicles were registered in Canada last year, of which over half or 524,270 were in Ontario.

### Must Be Best Grade

#### Only Two Canadian Salmon Can Hold Empire Market

The salmon industry is an important British Columbia industry. It has yielded over \$18,000,000 a year. About 85 per cent. of its output goes into the export market, where it must meet with the keenest sort of competition from American, Russian and Japanese salmon. It is of first importance that the quality of the fish be maintained and the canners have already received stern warning from the Department of Trade and Commerce that off-grade salmon has been getting into the export trade. British Columbia salmon has been given a preference under the Ottawa treaties but preferences or no preferences, it can only hold its place in the Empire market if it can establish its merit.—Vancouver Province Cons.

### Fame Rests On Comma

#### Doubt As To Whether Raleigh Introduced Smoking Into Europe

The will of Deacon, a son of Christopher Columbus, recently discovered in Spain, was first thought to cast doubt upon the generally accepted story that Sir Walter Raleigh first introduced smoking into Europe. This will, dated May 2, 1523, more than sixty years before Raleigh smoked his first pipeful of tobacco, disposed of a sum of money to a certain Antonio described apparently as "tobacco merchant of Lisbon." Now closer examination of this document causes scholars to believe that the clause reads, "Antonio Tobasso, merchant of Lisbon." The fame of Raleigh as patron saint of tobacco therefore seems to rest on the placing of a comma.

### Honor Rolls For Herds

#### Seventy-Six Herds In Saskatchewan Receive Production Certificates

Honor rolls covering 76 herds in Saskatchewan have been issued during the past week. Hon. W. C. Buckle, Minister of Agriculture has announced. The certificates are for the 1932 production year.

Regulations governing the issuance of the certificates require a minimum average production per cow of 300 pounds of butterfat per year, with the minimum number of cows per herd set at five. The first eight herds on the list all averaged over 400 pounds of butterfat and were 24 herds with an average production of above 350 pounds of butterfat.

### Failed At Last

Sir Arthur Samuel, M.P., told an audience of horticulturists at Knaufhill, Surrey, England, that on the principle that "an apple a day kept the doctor away," he had eaten 80,000 apples during the past 40 years. He had eaten five apples a day. Then he went to bed with an attack of bronchitis.

A modern stabilized steamship must be somewhat like the rest of us. It has lost its roll.

More than 8,200 applications for patents were filed in Czechoslovakia last year.

### Was So Short of Breath Could Not Lie Down to Sleep

Mr. P. J. Charnoff, Shoreline, B.C., writes:

"I had been so troubled with shortness of breath I could not lie down to sleep.

I couldn't do any hard work, or climb the stairs, and had nervous and smothering feelings, and became very weak.

I took a few kinds of medicines, but could get no relief until after I had taken three boxes of Milburn's Heart and Nerve Pills, and since then I have felt better in every way."

For sale at all drug and general stores; pur-puy only by The T. Milburn Co., Ltd., Shoreline, B.C.

## PREMIER MAY GO TO WASHINGTON ON OFFICIAL VISIT

Washington—Unofficial report that Premier R. B. Bennett might soon pay an official visit to Washington were heard as plans were formulated for economic conversations between Prime Minister Ramsay MacDonald and President Roosevelt.

It was said, but not immediately confirmed that the United States president had expressed to Hon. William D. Herridge, the Canadian minister here, a hope that Mr. Bennett could soon visit Washington.

Whether or not the desire of Mr. Roosevelt was that Mr. Bennett might take such a visit to coincide with the conversations he hopes to hold here soon after the middle of April with Premier MacDonald, was not known.

Mr. Herridge conferred with Mr. Roosevelt in New York some weeks ago. Following the meeting it was said matters of general interest had been discussed. Since then there have been suggestions here that reciprocal tariff arrangements would be advantageous.

A prompt acceptance was received by President Franklin Roosevelt of the United States, to his invitation to Prime Minister Ramsay MacDonald, of Great Britain, to visit him this month and stay at the White House while here.

London, Eng.—Speeding up of the world economic conference will be the objective of Prime Minister Ramsay MacDonald's western visit to Washington, he indicated in the House of Commons.

The Prime Minister's projected 6,000-mile round trip for only a few days' talk with President Roosevelt at Washington stirred up no enthusiasm in the British press.

British plans call for his departure on April 15 on the steamship "Boreas."

Three treasury officials are expected to accompany Mr. MacDonald and his daughter. They may be Sir Frederick Leath-Ross, Sir Frederick Phillips and S. D. Wiley, T. K. Hewlett, another treasury department official.

## Aid For Western Canada

### Ottawa Assists Provinces To Meet Financial Obligations

Ottawa, Ont.—To help the four western provinces to meet maturing provincial obligations in New York, the Dominion Government in 1931 and 1932 advanced to them a total of \$15,422,568, according to a series of answers tabled in the House of Commons recently by the Minister of Finance.

These advances were as follows:

	1931	1932
Manitoba .....	\$3,180,883	
Saskatchewan .....	3,570,856	3,464,078
Alberta .....	3,142,586	
B.C. Columbia .....	3,371,664	1,732,500

British Columbia has repaid \$3,160,015 on the following advances, Saskatchewan, \$100,592; Manitoba, \$47,587; and Alberta, \$563,939.

Saskatchewana benefited to the extent of \$6,653,739.73 from the federal treasury in advances in 1931 and 1932 to assist that province in meeting provincial government expenses.

## Boat Space Arranged For Cattle Export

### Canada Expects To Ship 45,000 Head To United Kingdom

Ottawa, Ont.—The fact that boat space has been arranged on the assumption Canada would ship to the United Kingdom 45,000 head of live cattle this year was given to the Senate committee investigating the cattle situation by Hon. Robert Weir, Minister of Agriculture. Cattle prices in the United Kingdom may be expected to improve but not much before the end of May, Mr. Weir said.

### Admiralty Court Planned

Ottawa, Ont.—First reading was given in the House of Commons to a bill sponsored by Hon. Hugh Guthrie, Minister of Justice, the purpose of which is to establish in Canada an admiralty court within the jurisdiction of Canadian statutory law.

### Settled With Assessment

The Pas, Man.—When Mayor C. R. Neely and members of the council opened the annual sittings of the court of revision here, they found that no appeal had been made against the revision of the assessment roll.

W. N. U. 1939

## History-Making Conference

### Ramsay MacDonald Plans Early Visit To Washington

Washington—President Roosevelt laid plans for a history-making conference here soon with Prime Minister Ramsay MacDonald, while his special envoy, abroad, Norman H. Davis, moved to learn how far the Hitler regime in Germany will cooperate for world disarmament and economic recovery.

From London came the word that the Prime Minister looks favorably on the idea and is making provisional arrangements for sailing about the middle of the month.

Meanwhile came to the state department that Davis is going to Berlin from Paris Friday, to talk with Adolf Hitler's foreign minister, Baron Konstantin von Neurath, Davis discussing matters related to disarmament and a date for the economic conference.

Hitler's rise to dictatorial power at the head of a strong Fascist movement has led to fears in some quarters that the nation would seek to re-arm in defiance of the Versailles treaty.

London, Eng.—J. Ramsay MacDonald, Prime Minister of Great Britain, plans a speedy Easterly mission to Washington. It was learned, Mr. MacDonald will confer with President Franklin D. Roosevelt and his aides regarding troublesome European and world problems.

Remaining in Washington only a few days, Mr. MacDonald will return to London soon after the House of Commons reassembles April 25, prepared to preside at the World Economic Conference, to push his disarmament plan at Geneva, and to continue the Ottawa pacification scheme inaugurated with Premier Mussolini in Rome last month.

## Investigate "Akron" Disaster

### U.S. Naval Court Will Make Searching Inquiry

Washington—Minute and searching inquiry into the destruction of the U.S.A. Akron will be opened at Lakewood, N.J., by a naval court of inquiry headed by Rear Admiral W. W. Phelps.

The court was ordered by Admiral William V. Pratt, chief of naval operations, after his own high officials had heard a personal account of the tragedy from the only three survivors, Lieutenant-Commander Herbert W. Wiley, Richard E. Deal and Moody E. Erwin, enlisted men.

From naval craft searching hundreds of square miles off the New England and Delaware coasts came reports of "no luck."

But Pratt sent out new orders to keep up the search until "there can be no thread of hope."

He ordered the submarine rescue ship "Falcon" to start dragging for wreckage. Pieces of the craft, he felt, might contain the vital clue to the cause of the crash, upon which the three survivors could shed little light.

Upon the court's findings will hinge, probably, the course to be followed by congressional investigations for which plans have been started. The wave of sentiment for abolition of lighter-than-air craft met a reaction in some quarters. A few congressmen spoke up against "hysterical" conclusion.

## Surplus On Higher Incomes

### B.C. Bill Imposes Additional Tax Amounts Over \$5,000

Victoria, B.C.—A bill providing for a surtax on higher incomes imposes an additional tax of one per cent on incomes of \$5,000 and up to \$7,500, and is increased by one per cent every additional \$2,500 up to \$47,500, when a maximum levy of 18 per cent is reached, to apply on all incomes in excess of that amount.

By the terms of a bill to amend the Income Tax Act, every corporation will be compelled to furnish to the commissioner of taxation a return of all dividends and bonuses paid to its shareholders or members during the preceding calendar year. The return must be made on or before the last day of February.

### Belongs To Denmark

The Hague, Holland—Denmark's title to eastern Greenland was confirmed by a decision of the permanent court of international justice in her favor in a dispute with Norway over its ownership.

### More Jobs In U.S.

Washington—William Green, president of the American Federation of Labor, in a statement, estimated that 250,000 persons lost their jobs in March bringing the total unemployed "well over 13,000,000."

## Peace Club Plan

### Premier Mussolini, Of Italy, Says Plan Must Remain Intact

ROME, Italy.—While the French Government was drafting what reportedly is a revised peace project to submit to Premier Mussolini, of Italy, Il Duca has issued an advance notice that the fundamental provision of his "peace club" plan must remain intact.

Premier Mussolini's statement was issued through the grand council of Fascism, his highest advisory body, after a late night session.

It declared his recent suggestions, asking for collaboration by France, Germany, and Great Britain for peace, are the only bases on which "peace or equality" can be built.

At the same time, the conviction was expressed that "through the work of clarification already initiated," the plan will find in the leaders of the government "the same comprehension that already has been shown in the people."

The council said it felt sure that the formation of a new political atmosphere will make a fruitful international collaboration also possible in the field of economics.

## RECIPROCAL TRADE WITH U.S. OTTAWA RUMOR

Ottawa, Ont.—Events of the past few days have strengthened the belief here that a reciprocal trade agreement between Canada and the United States is in the making.

No official confirmation of this report is available, but it is not the custom of the government to make any announcement while such projects are pending.

Hon. Percy C. Black, on his return from Ottawa, Halifax, and return to London, reported that the number of inquiries, regarding the possibility of a trade agreement between Canada and the United States, was increasing.

Observers here interpret this statement as an indication that the Nova Scotia minister referred to the possibility of restoration to Canada of a share of the United States lumber market, for many years the greatest outlet for the products of Canadian forests.

The fact Hon. W. D. Herridge, Canadian minister to Washington, spent the greater part of March in Ottawa in close consultation with officers of the Department of External Affairs, adds weight to the rumors.

In the House of Commons some days ago, speaking of requests that certain commodities, including lumber, be included among those to be assisted by the export stabilization fund proposed in the budget, Prime Minister R. B. Bennett observed there were other means of assisting these industries.

The tariff commission announced recently that President Roosevelt has issued his first proclamation, under authority of the flexible tariff law, calling for a decrease in duties on certain agricultural hand tools. The president ordered a decrease of 10 per cent on hay forks and forty-five fertilizer forks from eight cents each to four cents each and 22 1/2 per cent ad valorem, the maximum decrease possible under the flexible law.

## AS IL DUCE MET BRITISH PREMIER

Here is pictured the historic meeting between Premier Ramsay MacDonald (left) of Great Britain, and Premier Benito Mussolini, of Italy, when they met recently to confer on a plan to preserve the peace of Europe. The photo was made as Il Duce greeted the British Premier on the latter's arrival at Rome from Geneva by plane. Following this meeting Premier Mussolini announced his Four-Power plan for a five-year disarmament holiday.

## MAY RECEIVE APPOINTMENT

### Fight Grasshopper Plague

#### Manitoba Taking Measures To Combat Expected Outbreak

Winnipeg, Man.—Plans are being made to combat a grasshopper plague of alarming proportions in Manitoba next summer, Hon. D. G. McKenzie, Minister of Agriculture, told the Manitoba legislature when estimates for his department were under consideration.

The most effective forms of bait have been chosen and sources of supply arranged, Mr. McKenzie said. Surveys of areas of infestation from egg deposits were completed fast fall by Dr. Norman Criddle, Dominion entomologist, and a good idea was obtained of the areas where the outbreak of grasshoppers is likely to be most serious.

The amount of money needed to combat the menace could not be estimated this early, Mr. McKenzie explained. It might be between \$30,000 and \$40,000. Premier John Bracken indicated a bill may be brought before the end of the present session.

## Lift U.S. Gold Embargo

### President Roosevelt To Permit Free Exchange Under License

Washington—President Roosevelt ordered the return of all gold over \$100 held by individuals to the federal reserve system before May 1.

In the same executive order the president authorized the secretary of the treasury to issue licenses permitting the use of gold in necessary domestic and foreign trade transactions.

For violation of the order the president decreed a maximum fine of \$10,000 and imprisonment of 10 years, or both.

The order was issued to get such gold as still is in hoarding and to ease the national embargo to permit legitimate transactions under federal license.

The president will continue the firm executive hold on the gold supply of the United States to prevent foreign raids or domestic hoarding, but otherwise the gold embargo will be lifted.

By the order the secretary of the treasury is authorized to permit its free exchange again under a licensing system.

## Flee From Germany

### Prof. Einstein's Daughters Leave Germany For France

Cop-Sv-Mer, Belgium.—Prof. Albert Einstein's two daughters have fled from Germany, the scientist declared.

The younger daughter, who is married to a Russian, left Germany for France. Her sister, the wife of a German, left Berlin secretly and has arrived at the town of Scheveningen in southern Holland.

Mr. Einstein learned that the older daughter had fled when she telephoned her home in Berlin and was told by a weeping servant that her mistress had left secretly for the frontier.

### Woolen Jap Training Ships

Victoria, B.C.—Twenty-one gunboats from the signal tower at Esquimalt basked a formal welcome to the Japanese training ships, "Iwate" and "Yakumo" when they arrived in Esquimalt harbor. Shortly after they dropped anchor more than 1,000 sailors were given shore leave and crowded the streets of the city.

## HITLER PLANS TO LINK CHURCH TO THE STATE

Berlin, Germany—Disturbed by a National Socialist movement to reorganize the Lutheran church structure, "ordinating" it with the principles of Nazism, the supreme council of the Evangelical Church reminded Chancellor Hitler of his promise not to touch the country's independent churches.

The promise, said members of the council, was made in the speech with which the chancellor opened the Reichstag on March 23.

A resolution saying that "the state and the church" are calling for the church and the church has to heed the call," was adopted at the closing session of the first national convention of the German Christian movement composed of Protestant Nazis.

The resolution was taken to mean the dissolution of the present church bodies and the revision of the Protestant church constitution by means of adapting the church to the state.

The Monarchist Kreuz Zeitung asked editorially whether the Roman Catholic Church also would be included in the proposed revision.

The convention opened to celebrate "God's victory over the Satanic forces of the underworld"—meaning the Nationalist revolution.

The convention demanded, among other things, the removal of such well known theologians as Otto Dibelius, Wilhelm Doehring and George Burghart.

The government has announced that a regulation forbidding persons to leave Germany without special police permission will not apply to foreigners. The regulation will be invoked after numerous reports of flights of great numbers of Jews, with their possessions, from Germany.

## Would Amalgamate

### Reported Express Companies May Decide To Join Forces

Toronto, Ont.—Toronto Telegram says a committee composed of Canadian Pacific and Canadian National Express Companies' officials has been formed with the purpose of determining whether amalgamation between the two companies can take place.

The Telegram continues: "This committee, which is composed of high officials of the general executive offices of both railroads, is already looking the ground over and it is rumored strongly progress has been made so far that the two companies are in agreement regarding the terms of amalgamation except on the point of retention of employees."

"As amalgamation of the express companies would result in a certain number of employees of both companies being laid off or forced to retire, it is believed the only stumbling block is the matter on what basis the men are to be laid off."

"Our express company wants the basis of seniority to prevail, in which case 60 per cent of their employees would be retained in comparison with 40 per cent of the employees of the other express company."

## Inquiry Is Ordered

### Cattle Export Trade To Be Investigated By Committee

Ottawa, Ont.—Decision to launch an inquiry into the export cattle trade by a committee of the senate means the cattlemen of Canada will have their problems thoroughly aired at the present session of parliament. A committee of the House of Commons, is already busy investigating the milk trade and the dairy branch of the livestock industry.

The inquiry followed a proposal advanced by Senator D. E. Riley, of High River, a veteran cattlemen himself.

## Hon. Frank Oliver Mourned

### Crowds Attend Funeral Of Edmonton's Best Known Citizen

Edmonton, Alberta—All Edmonton mourned when the funeral of its best known citizen and the west's greatest champion—Hon. Frank Oliver, was held. Following a simple but impressive service in First Presbyterian Church at 2:30 p.m., a lengthy procession travelled to Edmonton cemetery where burial took place in the family plot.

Rev. A. R. Osborn pronounced the last earthly rites for the pioneer, statesman and publisher. There were four massed choirs.

## Local and General Items

We promise to be good tomorrow, because it's Good Friday.

Repairs are being effected to the only surviving residence on Hill Sixty.

Billy Stewart has been chosen boxing referee for Alberta. Atta boy, Bill!

Not so "Swift!" A baby boy arrived to Mr. and Mrs. Milt Ray at Fernie on Monday morning.

Reductions made in salaries of teachers at Okotoks for this year amount to \$3,075.

At the United church on Saturday afternoon, the annual sale of needlework, home cooking, etc., will be held, from 3 to 6.

If it is necessary to raise extra money for the benefit of the unemployed in Blairmore, what about Fernie?

Many Easter festivities are planned for next week. For particulars, see posters in The Enterprise windows.

Under the general policy of economy, the provincial government will make no grants to school fairs this year.

Local stores will observe Easter Monday as a holiday and will close their premises all day, the same as for the statutory holiday tomorrow, Good Friday.

A few days ago, a friend listened to Milt Ray relating marital experiences and commented: "Love's Labor Lost," to which Milt replied "Not on your tinype!"

Announcement has been made in Edmonton that there will be no vote on the beer parlor question this year. The matter will be held over until improvement in provincial finances.

This summer's international Scout Jamboree in Hungary will have its own daily paper, the "Magyar Cserekez," pronounced "maddihán chair-ace." It will be printed in four languages—Hungarian, German, French and English.

All physically fit unemployed men of Lethbridge will be cut off relief by April the 20th. They are told they must find work on farms or in other occupations. Blairmore would be well advised to follow suit.

Mrs. A. C. Kemmis has been seriously ill in the Cardston hospital, where she recently underwent a critical operation. Her daughters Aileen and Sybil, and her mother and brother, Mrs. S. N. Hinton and Mr. R. F. Hinton, are with her.

The Dejkobokers, under their leader, Peter Veregin, are requesting a royal commission to look into the differences between this cult and the Canadian laws. It should be an easy matter to get at the naked truth—Wingert advance.

Alibondio Bevalacqua, well known and active member of the Hillcrest Miners' Club, died at Hillcrest on April the 1st, aged twenty-nine years. The remains were laid to rest at Hillcrest on Monday, the 3rd, Rev. Father Harrington, of Blairmore, officiating.

Mr. Edward L. Jones, who has been acting secretary of the town for the past few weeks, left for Calgary by this afternoon's train. Rumor has it that Mr. Robert Horne, present member of the school board, is likely to resign to accept the position of secretary-treasurer.

Direct advertising over the air is restricted under regulations of the Canadian Radio Broadcasting Commission now in effect. In no case will direct advertising be permitted to exceed six per cent of the programme, although in cases where there is a combination of direct and indirect advertising, applications from stations for a slightly lengthened advertising period will be considered.

## Sleepy After Meals?

### Watch For Poisons

A drowsy, tired feeling is usually a sign of bowel poisons, that breed germs. Get rid of them with Adlerska. Act on both upper and lower bowels without discomfort. Blairmore Pharmacy.

### CARD OF THANKS

Mrs. Norma Wiswell, her daughter, Mrs. A. S. May, and son Byron, and Mr. A. S. May, desire to thank all friends in Blairstown and district for expressions of sympathy with them in the extreme loss they were called upon to suffer through the death of their daughter and sister, Mrs. Margaret Oliver.

Dr. J. Olivier was down from Creston yesterday.

Miss Doris Sartoris will be an Easter visitor with her sister Mary at Calgary.

Large fresh herring are being sold in Newfoundland for a cent each. Next for the cheapest meal!

Constable Fenn, of the R.C.M.P., has been transferred from Drumheller to Crossfield.

Hot feet and cold heads have a fair chance of getting somewhere; but reverse the order and there isn't one chance in a million.

W. L. Macdonald, one of the British engineers charged with espionage, bribery and sabotage in Russia, has pleaded guilty.

The bad egg of Crows' Nest declares that women think of little else but clothes. First it's the wedding gown, and then the divorce suit.—Ex.

Inspector and Mrs. K. Duncan, at Lethbridge, have as their guests Mrs. Duncan's sisters, Mrs. H. C. Sinclair, of Edmonton, and Mrs. R. J. Gillis, of The Pas, Manitoba.

Dave Emery has relinquished management of the Greenhill Grill, which is now being operated by Mr. and Mrs. Duncan in conjunction with the Greenhill hotel.

Rev. George Biddle, formerly of Pincher Creek Anglican church, and lately of Calgary, has accepted the incumbency of St. Phillip's church, Vancouver.

W. Harry Herchmer, barrister and brother of S. Herchmer, barrister, of Fernie, passed away at the St. Eugene hospital at Cranbrook yesterday after a lingering illness.

Rev. Frank Sanders, who recently resigned as pastor of St. John's United church at Brockville, Ontario, has accepted an invitation to the pulpit of the United church at Fernie, where he will take charge in August.

Roaring drama out of the living record! Presses pounded this story! Secret finance sought to suppress "The Billion Dollar Scandal!" Robert Armstrong, Constance Cummings and a strong supporting cast make it vivid! Now showing at the Orpheum.

DON'T FORGET THE DATE, May 5th, at the Columbus hall, commencing at 7.30, a Grand Variety concert, put on entirely by children. Come, see and hear; laugh and grow fat; encourage the children; patronize home talent. Everybody welcome.
